Codeforces: https://codeforces.com/profile/.019
Address: Moulvibazar, Sylhet

Final-year B.Sc. in Computer Science and Engineering student at Leading University. Passionate **MERN Stack Developer** with a strong foundation in **Full-Stack Web Development**, **Mobile App Development**. Experienced in building dynamic, responsive web and mobile applications. Enthusiastic about problem-solving and modern web technologies

---

Core Competencies

- Full Stack Web Development (MongoDB, Express.js, React.js, Node.js)
- Mobile App Development (Flutter, Dart, Firebase)
- Firebase Authentication & Backend Integration
- Competitive Programming & Problem Solving (Codeforces, CodeChef, VJudge)
- REST API Development
- Team Collaboration & Agile Development
- Git & Version Control
- Continuous Learning & Adaptability

Projects

Full Stack Developer

Prothom Ondhokar News

- Built a full-fledged news platform with dynamic routing, authentication, and dashboard features.
- **Technologies:** React.js, TailwindCSS, Node.js, Express.js, MongoDB, Firebase

Job Portal – Full-Stack Web Application
Built a complete Job Portal web application allowing recruiters to post jobs and applicants to apply. Included features like authentication, dynamic job listing, and application management.

- **Used**: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Firebase
- **Features**:
    o Recruiter and Applicant Authentication (JWT & Firebase)
    o Post, View, and Apply for Jobs
    o Application Status Update (Under Review, Interview, Hired, Rejected)
    o Dashboard for Recruiters to manage postings and applications
    o Responsive and user-friendly UI
- **Role**: Full-Stack Developer (Solo)

Portfolio Website & Practice Projects

- Created multiple responsive websites and mini projects.
- Implemented user authentication and backend services using Firebase.
- **Technologies:** HTML, CSS, TailwindCSS, JavaScript, React.js

Flutter App Developer

Bangladesh 2.0

Developed a documentary-style mobile app showcasing national history using Flutter. Implemented responsive UI, navigation

- Used: Flutter, Dart, Firebase
- Role: Lead Developer

Flutter App Developer

Giga Store – E-commerce App

Built a gadget-selling app with user-friendly product listing, cart functionality, and order system.

- Used: Flutter, Firebase
- Role: Solo Developer

Competitive Programmer

- Solved 1000+ problems across Codeforces, CodeChef, HackerRank, VJudge.
- Participated in **SUST IUPC 2024** onsite contest.
- Strong command over algorithms, data structures, and problem-solving.

Technical Skills

Category	Skills
Programming Languages	C, C++, Java, JavaScript, Python (basic), Dart
Frontend Development	HTML5, CSS3, Tailwind CSS, JavaScript, React.js
Backend Development	Node.js, Express.js, MongoDB
Mobile App Development	Flutter (Dart), Java, Firebase, SQLite
Tools & Platforms	Git, GitHub, VS Code, Firebase,
Concepts	REST APIs, Authentication (JWT, Firebase), OOP, DSA

Education

Bachelor of Science (B.Sc.) in Computer Science and Engineering

Leading University, Sylhet, Bangladesh

Expected Graduation: 2025

Current CGPA: 3.27 (after 3rd year)
